Weather Key Points

Regional Operations Center

Western Region

Saturday, September 24

- Dry conditions will persist across most of the state through at least the middle of next week
 - Isolated thunderstorms are possible over the mountains of far southern California through the weekend and Monday
- A warming trend is expected statewide through the beginning of the week
 - Moderate heat risk concerns will return to southern California Sunday through Wednesday as readings warm into the 90s and lower 100s
- Dry and breezy conditions will bring locally elevated fire weather conditions to southern California most afternoons through next week, with some locally gusty winds also expected over the Sierra and Modoc Plateau for midweek

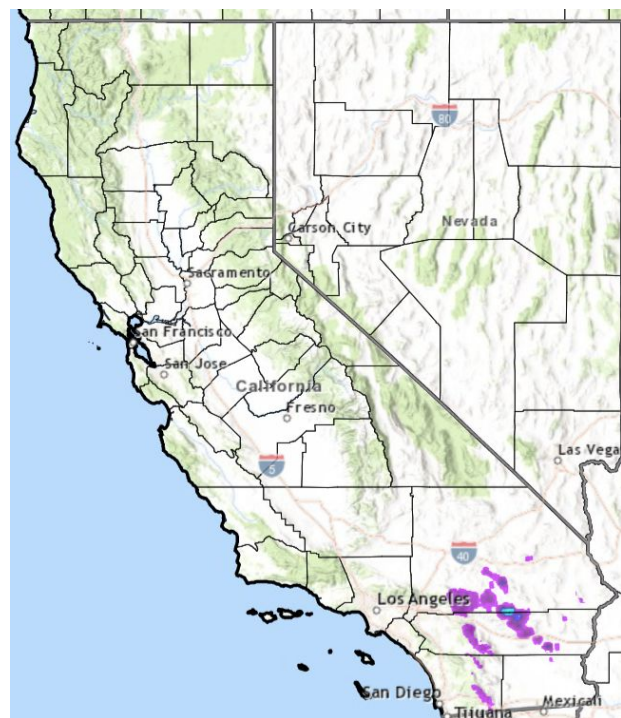

Precipitation Forecast

Regional Operations Center

Western Region

Saturday, September 24

Saturday

Sunday

Monday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)
